\* 12 years of UFO experience show that persons who give  
sketchy UFO reports, such as these, and not give them  
names, should be viewed with suspicion, as they have  
nothing to lose publicly - i.e. if their names are  
by sources.

MEMO FOR FILE

SUBJECT: Telephone Conversation With C.O. Canton Filter Center, Ohio,  
Lt. J. E. Weaver, Phone: Glendale 3-7676, re Canton, Ohio Incident,  
7 April 1958

1. Lt. Weaver checked his chief GOC operator at Austinburg, Ohio regarding the housewife reporting the UFO as stated in TT Msg INT-4-276. No knowledge of, or location of Source. No UFO reported to that GOC post.

2. Lt. Weaver called Brookfield AFS, 662/ACWRON, talked to C. O. Capt. Powell, who checked his records. No record of anyone reporting a UFO.

3. However, when asked about the "object" reported to have fallen in a swamp north of Austinburg, Capt. Powell stated that 662nd radar picked up, tracked and identified a meteor trail. Further, this was confirmed by a Cleveland TV Station: Meteor passed over the area - and disappeared somewhere in Canada. (Most observers reporting bolides, fireballs, meteorites generally state that they fall near their locality; an optical illusion proven for over 12 years of UFO Projects existence.
